HOW TO USE

1. Attach the soap dispenser to the chosen wall using screws or double-sided adhesive tape.
2. Open the dispenser by inserting the key into the slot located at the top, and insert the refill.
3. Place the refill correctly by inserting the bag and positioning the nozzle on the right side, facing directly forward. Then press the nozzle firmly until the cap is expelled.
4. Once the valve is connected to the pouch, place it into the lower compartment using the two side clips, making sure it is oriented downward.

FEATURES

It is marketed with the possibility of supplying the hydroalcoholic gel product in a pouch. Simple, easy to refill and clean (smooth surfaces). Practical size: Model suitable for communities. Easy installation: Screwed or adhesive. Valid for any surface (marble, glass, tile, etc.). Equipped with a translucent window to guarantee the correct control of product consumption. Reinforced with integrated closure. Provided with an anti-drip valve that avoids product waste.
