FEATURES

- Improves company image by presenting a hygienic environment in male bathrooms. ·Simple design. Economic. ·Adaptable to all types of urinals. Very flexible. ·Suitable for bathrooms with high frequency of use. ·It gives off a nice scent upon contact with liquids. Aromatizes the enviroment. ·Prevents drain blockages.

COMPOSITION

FLEXIBLE PVC: High resistance, waterproof, good superficial apparence.

URINAL SCREEN

It effectively prevents annoying splashes thanks to its new dotted design. Fully flexible urinary Filter, designed to keep out foreign objects (papers, butts, gum, etc.) that unduly are thrown in the urinary, avoiding in an easy and economical way, pipe obstruction and subsequent damage. At the same time, thanks to the active flavoring agents and neutralizing agents that are injected into the manufacturing process, releases a soft fragrance in contact with water or urine, absorbing the usual bad odors characteristic of the urinals.
