

## HYDROALCOHOLIC SPRAYER UNIVERSAL REFILL 320ml

**Description:**

Refill for Universal Air Freshening System designed to fragrance and refresh indoor environments while effectively neutralizing unpleasant odors. Its exclusive formula, developed with high-quality and long-lasting fragrances, ensures a subtle and continuous scent diffusion.

Provides enduring freshness day after day with refills that are easy and convenient to install. The refills are specially engineered to operate within an automatic dispensing system that gradually releases the product into the air for optimal and consistent performance.

Proandre, committed to the environment.

**Aromas:**

We offer fragrances from all olfactory families to suit every taste. Our catalog features sweet scents like peach and gummy candy, fresh and herbal aromas like bamboo and spring, floral scents like orange blossom, and citrus scents like lime and lemon air.

Refill Capacity: 320ml

**Suitable for:**

To freshen and scent spaces of all kinds. Especially useful in environments with a constant presence of bad odors (office bathrooms, public restrooms in general).

**Establishments:**

Especially suitable for sectors such as tourism, hotels, hostels, offices, tourist rental apartments, commercial areas and public toilets.

**Precautions**

H317 It can cause an allergic skin reaction.  
H225 Highly flammable liquid and vapor.  
For more information, consult the Safety Data Sheet.
