

PRODEO ODOR ELIMINATOR

LIQUID NEBULIZER

Concentrated liquid specially formulated to eliminate bad odours in nebuliser format. It is ideal for environmental use due to its effective dispersion in the air. It is a product that combines several technologies to achieve effective neutralisation of bad odours, leaving a more pleasant and healthy environment.

Function and Composition

PRODEO Odor Neutralizer is a product specially formulated for the treatment of unpleasant odors such as burning odors, sweat and solvents. It is ideal for use in overcrowded spaces such as offices, cafes, bars, as well as in rooms of teenagers or elderly people. The product has a slight talcum powder smell, providing a pleasant fragrance while neutralizing unwanted odors.

It does not mask the odor by covering it with another fragrance, but directly captures the molecule that causes the bad odor and makes it disappear from the air; in this way the bad odor is eliminated from the treated environment or surface.

Applications

- Neutralization of burning, sweat and solvent odors.
- Ideal for overcrowded spaces (offices, cafes, bars, waiting rooms).
- Use in rooms for teenagers or the elderly, hospitals, nursing homes...

Physical-Chemical Characteristics

- Appearance: Liquid
- Color: Colorless – Slightly Yellow
- Odor: Characteristic (Slight talcum powder odor)
- Density: 0.950 - 1.00 g/ml
- pH: N.A (Product not soluble in water)
- Flash point: >70°C

Storage

Store in a cool, dry place. Keep containers closed and protected from light and heat.

Precautions

Product for Professional Use. Do not ingest. Avoid contact with skin. Avoid contact with eyes and mucous membranes. Avoid release into the environment. Dispose of the contents and/or container in accordance with current legislation. Full information can be found in the Safety Data Sheet (SDS).
