

Concentrated liquid specially formulated for odor elimination in spray format. It is ideal for quick and effective application in the air. This product combines various technologies to achieve effective odor neutralization, leaving a more pleasant and healthier environment.

### **Functionality and Composition**

The **PROWASTE** Odor Neutralizer is a specially formulated product designed to tackle unpleasant odors such as garbage, food, fried foods, and decomposition. It is ideal for use in restaurants and areas near dumpsters, providing a light and pleasant citrus scent that aids in neutralizing unwanted odors.

Rather than masking the smell with another fragrance, it directly captures the odor-causing molecule and removes it from the air, effectively eliminating bad odors from the treated environment or surface.

### **Applications**

- Neutralization of garbage, food, fried foods and decomposition odors.
- Ideal for use in restaurants and areas near dumpsters.

### **Physical-Chemical Characteristics**

- Aspect: Líquid
- Color: Colorless – Slightly Yellow
- Odor: Characteristic (Slightly citrus smell)
- Density: 0.800 - 0.900 g/ml
- pH: N.A (Product not soluble in water)
- Flash Point: < 60°C

### **Storage**

Store in a cool, dry place. Keep containers closed and protected from light and heat.

### **Precautions**

Professional Use Product. Flammable. Do not ingest. Avoid contact with skin. Avoid contact with eyes and mucous membranes. Prevent release into the environment. Dispose of the contents and/or container in accordance with current legislation. Complete information can be found in the Safety Data Sheet (SDS).
