### INSTRUCTIONS FOR USE

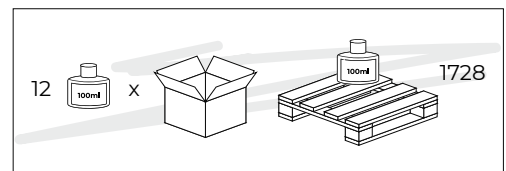

1. Insert the rattan rods into the container so they absorb the fragrance and release their aroma. The intensity of the scent can be adjusted by using more or fewer sticks.

### PROPERTIES

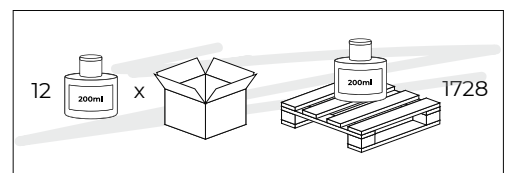

The Mikado is a diffuser that scents the home through rods. The rods evaporate the fragrance and, upon contact with the air, the aroma spreads throughout the room. Our Mikado air fresheners are made with naturally derived alcohol and high-quality, long-lasting fragrances that remain in the environment in a subtle and continuous way. It scents and provides freshness that lasts every day for 1 month.
