

REF: NEBWC

PRO-WC ODOR ELIMINATOR
NEBULIZER REFILL

FEATURES

- ASPECT:** Liquid.
- ODOR:** Light Jasmine scent.
- COLOR:** Slightly yellow.
- DENSITY:** 0,950-1,000g / ml.
- PH:** Not applicable
- MATERIAL:** Polyethylene terephthalate and high-density polyethylene.
- SOLUBILITY:** Not soluble in water
- FLAMMABILITY:** Flammable (> 70°C).

APPLICATIONS

- INDICATED FOR:** Broad-spectrum odor neutralizer specially designed for bathrooms where odors can be persistent and difficult to eliminate. This nebulizing format allows for effective and convenient application, as it disperses into the air as a "mist," achieving greater coverage and reaching even the most difficult-to-access corners.
- ESTABLISHMENTS:** Neutralization of odors from bathrooms, pipes, and wastewater. Ideal for use in public restrooms and high-traffic toilets.
- MARKETING:** Can be customized with label / logo.

REFILLS

- REFILLS:** 1L, 5L, 20L.

OPERATION AND COMPOSITION

The PRO-WC odor neutralizer is a product specially formulated for treating unpleasant odors in bathrooms and wastewater areas. It is ideal for use in bathrooms, providing a light and pleasant jasmine scent that helps neutralize unwanted odors. It does not mask odors by covering them with another fragrance; instead, it directly captures the molecules that cause bad odors and removes them from the air. In this way, unpleasant odors are eliminated from the environment or treated surface. Store in a cool, dry place. Keep containers tightly closed and protected from light and heat.

PRECAUTIONS

Professional use product. Flammable. Do not ingest. Avoid contact with skin. Avoid contact with eyes and mucous membranes. Store in a cool, dry place. Keep containers tightly closed and protected from light and heat. Avoid release to the environment. Dispose of the contents and/or container in accordance with applicable regulations. Full information can be found in the Safety Data Sheet (SDS).

Concentrated liquid specially formulated for eliminating unpleasant odors in **Nebulizer** format. It is ideal for environmental application due to its fast and effective dispersion in the air. This product combines several technologies to achieve effective odor neutralization, leaving a more pleasant and healthier environment.
