

REF: NEBDEO

PRODEO ODOR ELIMINATOR NEBULIZER REFILL

85mm / 3,34inch

255mm / 10,03inch

FEATURES

ASPECT: Liquid.

ODOR: Light Talcum scent.

COLOR: Slightly yellow.

DENSITY: 0,950-1,000g / ml.

PH: Not applicable.

MATERIAL: Polyethylene terephthalate and High-density polyethylene.

SOLUBILITY: Not soluble in water.

FLAMMABILITY: Flammable (> 70°C).

APPLICATIONS

INDICATED FOR: Broad-spectrum odor neutralizer, specially designed to combat odors such as burning, sweat, solvents, and other strong smells. This nebulization format allows for efficient and convenient application, as its dispersion in the air is carried out in the form of a "mist," achieving greater reach and even accessing the most difficult corners.

ESTABLISHMENTS: Ideal for overcrowded spaces and suitable for use in rooms for teenagers or elderly people, as well as hospitals, etc.

MARKETING: It can be customized with a label / logo.

REFILLS

REFILLS: 1L, 5L, 20L.

OPERATION AND COMPOSITION

The PRODEO odor eliminator is a product specially formulated to treat unpleasant odors such as burnt smells, sweat, and solvents. It is ideal for use in overcrowded spaces such as offices, cafés, bars, as well as rooms for teenagers or elderly people. The product has a light talcum powder scent, providing a pleasant fragrance while neutralizing unwanted odors. It does not mask the smell by covering it with another fragrance; instead, it directly captures the molecule that causes the bad odor and makes it disappear from the air. In this way, the unpleasant smell is eliminated from the treated environment or surface.

PRECAUTIONS

Professional Use Product. Flammable. Do not ingest. Avoid contact with skin. Avoid contact with eyes and mucous membranes. Store in a cool, dry place. Keep containers tightly closed and protected from light and heat. Avoid release into the environment. Dispose of contents and/or container in accordance with current regulations. Full information can be found in the Safety Data Sheet (SDS).

Concentrated liquid specially formulated for eliminating bad odors in **Nebulizer** format. It is ideal for environmental application due to its fast and effective dispersion in the air. This product combines several technologies to achieve effective neutralization of bad odors, leaving a more pleasant and healthier environment.
